

GOLD STANDARD.

The "Reform" Currency Bill As Proposed by the Committee.

Greenbacks To Be Retired, and No More Silver Dollars to Be Coined.

Washington, Jan. 21.—The House Committee on Coinage, Weights and Measures today decided to report favorably the substitute for Hill Financial bill. This measure is substantially the bill prepared by the Indianapolis Monetary Conference, and was brought before the Coinage Committee by inserting in it several coinage paragraphs, thus flanking the Banking and Currency Committee, which sulkily declined to do anything.

The currency reformers are in great glee over this action. They do not look for its enactment this winter, but the reporting of the bill will bring the question prominently before Congress and the country. The bill establishes the gold standard and provides the gradual retirement of the greenbacks. Every Republican on the committee voted to report the bill. The Democrats voted against reporting it.

The bill provides that the standard of value in the United States shall be the gold dollar, and that all contracts existing and in the future shall be computed in reference to that standard, that there shall be established in the treasury a department of issue and redemption, that the greenbacks shall be retired and upon retirement that gold bills shall be substituted therefor.

No silver dollars are to be hereafter coined (except from bullion now in the Treasury, the Secretary of the Treasury, in his discretion, to coin silver into subsidiary coin as public necessity demands, and the re-coinage of old, worn, and uncurrent subsidiary coin, without special appropriation therefor, such coinage of bullion to be concurrent with the retirement of Treasury notes, the same as if coined into silver dollars, and the coinage of such subsidiary coin to be limited to \$50,000,000.

THE RETIREMENT OF GREENBACKS.

There is to be a separation of Treasury accounts between issue and financial transactions, a gold reserve of 25 per cent of outstanding notes and Treasury notes is to be maintained; also a 5 per cent gold reserve of the aggregate silver dollars, and a common fund for the redemption of all notes. The retirement of the greenbacks provision is, for the first five years, an amount equal to the increase of national bank notes issued subsequent to the taking effect of the act, 20 per cent to be retired annually during the next five years and greenbacks to cease to be legal tender at the end of ten years.

Gold and currency certificates are to be cancelled as paid and not as re-issued; no national bank notes under \$10 and no silver certificates over \$5 are to be issued. The tax on national banks is to be changed from the circulation to one-tenth of 1 per cent on capital, surplus and undivided profits.

The bill repeals all existing restrictions on the withdrawal and issue notes to full value of bonds deposited. National banks with a capital of \$25,000 and in cities of 3,000 population may be established; branch banks may be provided under regulations of the Controller of the Currency.

Mr. Bland offered a substitute for the single gold standard feature of the bill providing for free bimetallic coinage, and it was voted down 6 to 8, a strict party vote. The committee then directed the chairman, Mr. C. W. Stone, of Pennsylvania, to call up and press the bill at the earliest possible moment and to employ to that end any possible parliamentary expedient.

GOEBEL OPENS

The Gubernatorial Ball in a Speech At Lebanon Monday.

A PLAIN PAINTED PLATFORM.

LEBANON, Ky., Jan. 23.—State Senator Wm. Goebel addressed a large crowd here today in behalf of his candidacy for Governor.

He proceeded without delay to lay down his platform. He declared that he was for the Chicago platform in its entirety and without qualification, and would accept no nomination from a convention that did not adopt it. He announced that he was for the renomination of Bryan for the presidency, declared against the repeal of the election law, advocated legislation retreating the encroachment of trusts on the rights of the people, and stated that he was in favor of a law regulating the prices of school books. On the subject of discrimination in freight rates Mr. Goebel got after the railroads in lively fashion. The speech was a red hot campaign starter, and left no doubt where the candidate stood.

GOOD ROAD TALK.

The Government Road Commissioner Talks About Kentucky Highways

[Paducah News]

Mr. E. G. Harrison, special agent and road commissioner of the United States department of agriculture, was in the city last night accompanying Hon. Lucius Moore, state commissioner of agriculture, on his round of farmer's institutes.

They will go to Benton today, but will return tonight and spend several days in the city.

"The government, through the department of agriculture, is working up an interest in road building throughout the country," said Mr. Harrison to the News. "I have made a tour through the northwest and have been in Kentucky for several weeks. I am much gratified at the interest in road building in this state. Kentucky was one of the first states in the union to take up this matter of internal improvements, and the state built some splendid roads."

"In many of the eastern states the state government grants substantial aid to road building. In New Jersey the state will pay one-third of the cost of a road, the counties paying the other two-thirds. In New York the state aids to the extent of one-half. The state also exercises a supervisory power over the roads to the extent that the counties are required to maintain the roads to a certain degree of excellence."

Asked as to the experiment being made with crude oil in road building Mr. Harrison said: "The matter has not gone beyond the experimental stage yet, and the government is not prepared to formally recommend it. Our experiments up to this time have produced good results. The great trouble in the ordinary road is that it is not impervious to water. When water percolates through the road becomes soft and slushy. This is intended to be obviated by the use of oil. When poured on the gravel on macadamized roads, it oozes through forming a solid mass below, absolutely water proof. A second application will prevent dust and mud, and water will run off like water off a duck's back, as the saying goes. The government is hoping for great things. It is a mistake to suppose that crude oil will prove efficacious on graded clay roads."

"There is going to be a department of road building in the state college at Lexington. The government will aid in this new department so that all young men may have an opportunity to become proficient in scientific road making."

LOCAL OPTION

Contest Stirred Up Trigg County From End to End.

Trigg county is in the midst of a red hot contest on the local option question. The election comes off on Jan. 28. Cadiz, Corleane and Golden Pond will vote by districts and there will also be an election for the whole county. The contest has not yet reached a point where it is safe to forecast the result.

SHOCKING CRIME.

Committed in Union County, and a Mob May Do Business.

THREE YOUNG MEN IN JAIL

FRUENIA, Ky., January 22.—This morning Officers Joseph Taylor and Reese Berry landed Dan Barnett, Elliott Morehead and Guy Russell, three young men of Morganfield, in the county jail. The shocking crime charged against the three is criminal assault in its revolting form. The trembling prisoners are now hourly expecting being taken from the jail and lynched. The story as told by one victim is as follows:

On last Wednesday evening young Russell and Morehead drove out to the home of a farmer named Devine and told them they had come

TO MARRY THE GIRLS. To which he consented. The girls accompanied the men toward Uniontown, where they were to take a pack et for Shawneetown to be married. A short distance out of Morganfield the party was halted at a farm gate by a man said to be the confederate Barnett, and told to drive in. The command was obeyed, and the girls were taken to a large opening in a straw stack, where everything seemed to have been arranged for their stay.

The girls were held there till yesterday morning, when one of the victims begged to return home for some clothing she had left. At the point of a revolver she was sworn to silence and to return by 6 o'clock the following morning. Upon

REACHING HOME NEARLY DEAD She told the story to her father, who, armed with a gun, started for Morganfield with his daughter.

Officers Taylor and Berry were called then late at night and the party set out for the rendezvous of the men. They had nearly given up the search, when both officers' feet sank into an opening, over which rails had been placed for a temporary roof. Still no voice replied to their command. A gun was then thrust into the hole, which brought the head of Russell to view, and he at once surrendered. The other officer then let himself into the opening and was horrified at the sight of a young girl, almost nude and evidently

IN A DYING CONDITION. Lying upon the straw. The livid man was sent to town for a wagon, into which the girl was placed and taken to the parsonage, in the suburbs of the town, the hour being too late to take her to a hotel.

It was with difficulty the father of the girls was prevented from shooting Russell on the spot. Russell at first refused to divulge the names of the others implicated, but was compelled to. The officers then went to the homes of Morehead and Barnett at 1 o'clock this morning and roused them from bed, each being found in his mother's room. The pleas of the boys' mothers was heartrending, but the young men were immediately taken to jail and locked up with Russell. The police say that all have

VIRTUALLY CONFESSED. And while there is no open demonstration, there is an ominous silence that betrays the young prisoners, and Sunday night has been often a fatal one for such in Union County. It is probable the last Devine girl found in the strawstack will die without being able to make a statement. Both have a good reputation and the family are highly respected in their neighborhood. The three young men are of a well-to-do families of Morganfield.

THE MEANEST MAN

In The First District, If This Be True.

Hickman, Ky., Jan. 21.—Mrs. Sarah Sledge, seventy-nine years old, was found dead at her home, some five miles south of this place yesterday afternoon. Her body was badly bruised; and at the coroner's inquest held today it was shown that her son Bud Sledge, had often beaten her that she was known to have money and that her son had often demanded money of her and had been refused it was also shown that on January 14 her son left her at home without food and provisions and was absent for a week. The coroner's jury returned a verdict of criminal neglect against her son and he was arrested. Upon being searched near \$300 was found in his pockets.

A bill has been introduced in Congress making polygamist ineligible to a seat in that body.

LEAD TO WARS.

Will This Peaching Out For Empire, Says Senator Bacon.

In a speech in the Senate in discussing expansion Senator Bacon of Georgia, said:

"This reaching out for empire will lead Mr. Bacon, 'inevitably lead to war, not such wars as the one through which we have just passed, but great wars with all their sacrifices. It means vast armies, composed in large part of our young men ready on a day's notice to cope in bloody conflict with the great military powers of the earth. England is especially eager that the United States shall seize the Philippines. Why? Is it because she is so anxious to witness the further expansion and aggrandizement of the power of the United States or is it because she sees ahead of her a gigantic world's war over the partition of China, in which she wishes that the United States shall be compelled to take part, and in which she wishes and hopes that they

MAY BE HERALD?

Mr. Bacon made an earnest argument against war. "As war is the greatest curse of a nation," he said, "so is peace its most priceless possession. In this one respect we are the most blessed of any nation of the earth. Situated as we are, and powerful as we are, we need never engage in war unless we voluntarily seek it. When we cease to confine ourselves to our own hemisphere, when we undertake to meddle with the affairs of all the world, especially when in so doing we surrender the Monroe doctrine and consent to the intermeddling of Europe in the affairs of the American hemisphere, then indeed will this priceless immunity be gone forever. War seldom fails to claim its victims, and the vacant places and broken homes will find poor compensation in the glitter and splendor of a governmental power in the possession of a vast empire, paid for in the lives of its citizens and held at the price of ever recurring wars."

Mr. Bacon concluded by urging that the American people had enough to do in developing their own country, which exclusive of Alaska, was ample for a population of 300,000,000 and in developing our own resources there was enough to task the energies and inspire the hopes of our people for centuries to come.

"The object of England," resumed

Mr. Bacon, is that of war shall come in the East the United States may be drawn into it, that she may have this country as an ally. If that war comes it will not be confined to the Orient. It will involve every nation of the world."

IN DANGER.

Is the Peace Treaty And It May Go Over Until Next Session.

A late Washington letter says: The administration has been informed by Senator Davis that the treaty is in grave danger should a vote be forced now, and that the chances were for the matter will have to go over until the next session.

Senator Hanna confessed to me this morning that the situation was very much befogged, and that the actual strength the treaty had could not be estimated. The friends of the treaty will try to arouse public opinion against the opposition for filibustering against it.

To meet this and offset it, Senator Gorman will at the next executive session ask that a vote be taken. It is a shrewd move, and thoroughly German's, for the Maryland Senator, who is leading the Democrats, and who has almost succeeded in uniting them, knows that Senator Davis is afraid to let a vote be taken at this time. But by this Senator Gorman wishes to shift the responsibility for delay from the opposition to the administration itself. In consequence of this uncertainty the Congressional wheels are clogged.

No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c at J. H. Orme's drugstore.

An extra session of Congress is probable.

STATE FUNERALS.

A Correspondent Thinks They Are Not Unlike a Circus.

DIGNIFIED BUT NOT SOLEMN.

It is perhaps not the polite thing to say, but nevertheless it is the truth; a state funeral in Washington is not very different from a circus. It is a ceremony for the public. For the day it is one of the sights. Tick ets for the Dingley funeral were eagerly sought. The galleries were occupied by holders of tickets furnished by the Representatives. Congressmen out of the city were telegraphed to, seeking the use of their privileges and tickets. These black-bordered cards were not for sale in the sense of theater tickets by speculators, but in another way they went for influence and by favor. These tickets for admission were highly prized.

The formal story of the funeral has told of the assemblage resulting. It scarcely indicates the demeanor of that body of spectators. It was dignified, but not solemn. The Hall of the House of Representatives was not oppressed by that awe which one knows who has stood in the front parlor of a small home when the funeral service is recited. There was more eager curiosity than reverence. There was the silence of expectancy, but not the stillness of deep feeling. To the well dressed persons in the gallery it was a performance rather than a solemn ceremony.

Impressions of important events at the Capitol to some extent must go by contrast. Fully one half of those present at the Dingley funeral heard the remarkable speech of Senator Thurston on the Cuban question. To some extent that was a sensational event with theatrical accessories. He had lost his wife while he was seeking material facts for his speech. The whole country was waiting for decisive word from Washington. Under the circumstances, it was thought that what he might say would be instinct with earnest meaning. Critics may say that his speech was not so impressive or effective as that of Senator Proctor, delivered two days before. Be that as it may, none present will ever forget the scene that followed the conclusion of his speech. With a sob he stopped unable to finish the last sentence. He sank to his seat and buried his face in his arms. Words can scarcely convey the full impression of the absolute silence of those in the Senate chamber. It was as if all action had been stopped. For a half minute or more the vast number of persons sat as one stupefied by a great shock. Then there was relaxation in a tremendous outburst of applause.

That was real feeling. There was nothing approaching it in the hall of the House while the funeral ceremonies of the Maine statesman were in progress. It is not putting it too strong to say that most things of the ceremony were trivial and common place. The President for a time sat erect in his large leather chair, and then permitted himself to slip down as though to be more comfortable. He crossed and recrossed his legs and scanned the gallery for familiar faces. At his side was Secretary Hay, who kept his eyes rigidly to

the front. The President and all the Cabinet Ministers, with one exception, wore frock suits with dark gloves. Secretary Long was attired in a gray business suit, with light shoes and wore no gloves. He appeared as a busy man of affairs at director's meeting. The ceremonies seemed to have but slight interest to him. The Senators were uneasy and restless, especially so during the long sermon. It was what is commonly called an effort to harrow the feelings of the family.

Conspicuous on the floor to the House were the Oriental Ministers, three of them. They were conspicuous, not so much on account of their distinctive diplomatic dress, but by their demeanor. One of them sat leaning forward with both arms on the desk gazing intently at the speaker. The expression of his face never changed. The intensity of his interest never relaxed. Another sat with arms folded, and head erect looking across the hall, and never for an instant did he change his look or attitude. The third was turned with his head to a further corner of the room, and what was passing in his mind, was inscrutable and as in definite as is commonly said of the Sphinx. There was something facially about these three men. In feeling none was in sympathy with the spirit of the occasion, yet their interest, their respect, their combed and complete comprehension of the ceremonies exceeded that of all others. That is to say, as far as external evidence is counted. Even the august members of the Supreme Court were nervous and observing of outside things—Louisville Times, Washington letter.

Mr. A. E. Brown, of the Childress neighborhood, was in our vicinity last Monday, trying to get up a summer school at White Hall.

FLATLICK.

After five months of successful training our school closed on Jan. 19th. It is decided by every body that it was the best school that was ever taught in our district. About a month before the school closed our teacher, Mr. L. E. Waddell and the scholars concluded to have an exhibition at the close of the school. The exhibition was held at the church on Friday night. I will give only a part of the programme as it was too lengthy to give in full.

1st. House called to order by Dallas Vaughn.

2nd. Invocation by the pastor. C. R. Kinnin.

3rd. Song by choir—America.

4th. Recitation, Beasie Johnson and other pupils.

FOR YEARS

Washington, Jan. 18.—Gen. Leonard Wood, Military Commander of the Department of Santiago, was before the Committee on Military Affairs today. He expressed the opinion that for some time the 7,500 men now in the province of Santiago should be continued, but that after a time 5,000 would be sufficient. He considered, however, that a military force will be necessary to the maintenance of order for some years, and it should be sufficient to quickly check any trouble. This remark applied to the island as a whole, and he thought as many as 50,000 troops should be stationed throughout Cuba. With proper precaution and tact he did not anticipate trouble, and he believed that the insurgent forces would rapidly disintegrate in all parts of the island.

When you ask for DeWitt's Witch Hazel Salve don't accept a counterfeit or imitation. There are more cases of Piles being cured by this, than all others combined.—J. H. Orme.

Suffered 20 Years

Dr. Miles' Nervine Restores Health

Mrs. Mary Lewis, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I have been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

If you want first class clover and grass seed go to C. G. Wilson's Feed and Seed store.

Last week there was a man in town selling "tobacco cure"—guaranteed to create a distaste for tobacco in all forms. Jesse Olive invested in a box, and shortly afterwards got into a state of agitation over the deliciousness and joy of a good old fashion chew, and then he came rushing around to the Press office, and said "Here you may have this, please take it quick, I wouldn't have my taste for the weed destroyed for any sum of money," and he set the box on our desk, and looked like a great burden had been lifted from his mind as he cut off an inch from the small end of a good size plug and left contented.

MINIATURE CONGRESS.

The School Boys Organize Law Making Body.

The boys of the Marion Graded School have organized a Congress of their own for the discussion of live questions, and the session Friday night brought out the orators and parliamentarians in great numbers, and the discussion waxed warm, but was good natured and there were no personal encounters on "the floor of the House." There are seventy-five members of this miniature congress, and they line up as Whigs, Liberals and Independents.

Will Summers, of Livingston, is Mr. Speaker, John Bebout, of Sheridan, Clerk, Walter Walker, Vice-President; Officer; Dean Worde, Sergeant-at-Arms. The services of a chaplain were dispensed with upon the grounds that his duties were of a too formal nature for a real frank body.

The money question was up for debate Friday evening, and warm members made speeches pro and con. The Speaker exercised his prerogatives with dignity and skill; the Sergeant-at-Arms was equal to the occasion, and after two hours a vote was happily reached; the minority promptly refused to answer at roll call, but a quorum was mustered up and the bill passed.

A bill providing for an educational test for immigrants was debated at the next session.

Last week students of the ninth and tenth grades of the school elected five of their number to contest for the declamatory prize. The successful ones were Misses Bettie Biffman and Sallie Woods, and Messrs. Everett Butler, Chas. Moore and J. W. Lamb. The contest will take place at the Opera House, on the evening of February 22. The prize is a hand some gold medal.

If you want these qualities and the access to advance money to pay King's New Life Pills. They develop every power of brain and body. Only 25c at J. H. Orme's drug store.

Tobacco buyers from Sullivan and Providence were in the county this week.

Mr. R. H. Kemp, of Tunica, Miss., was in town Monday. He came up to look after some business in Quarterly Court, and left for home Monday night.

Mr. W. L. Hughes, of Hopkins county, is visiting friends in this county. Ten years ago, Mr. Hughes was a resident of Marion, and sold groceries for W. J. L. Hughes.

Rev. J. W. Hopper, who was to commence a meeting at the Methodist church here last week was detained at home by sickness and has not yet arrived. He is expected to day.

Mr. J. F. Dodge will leave Saturday for Fulton. He has been employed by C. E. Weldon & Co., a big grocery firm of that place. We regret that Mr. Dodge leaves Marion. He is one of the best and most enterprising citizens, and a valuable man in any community.

THE TELEPHONE.

The Work of Putting Up the Lines in Progress

Tuesday Mr. T. J. Alexander began the work of constructing the telephone lines for the exchange in Marion. Three or four car loads of fine cedar poles were unloaded, and a force of ten or fifteen hands are digging holes and setting them. All of the wire, the instruments and switch board have been purchased, and will be here in a few days, and the work will be pushed right along until completed. Rooms on the second floor of the Carnahan block have been secured for the central office.

Mr. Alexander is here superintending the work. He tells us that as soon as he completes his contract in Marion he will begin to branch out. He runs what he calls individual lines; that is where three or four farmers in the country, two, three, or even seven miles, will take instruments, he runs the line and connects them with the Marion exchange. By this means people in the country can talk to any subscriber in town or vice versa.

When asked if he would extend to other towns, such as Salem, Tolu, Dycusburg, Ford's Ferry, Weston and other places, he replied that wherever there was an inviting field, he was ready for business.

"It will only on a short time," he said, "I think until Marion can be taking over the system of independent companies to Evansville, Henderson and other large places in this section."

A WARM SESSION.

The City Court Investigates the Whiskey Cases Tuesday.

The Police Court held a warm session Tuesday. The house was comfortably filled with spectators, and there was business on Judge Gilbert's docket. The cases against the two drug houses charged with the illegal sale of liquor was the interesting feature.

After hearing the evidence the court assessed fines against Dr. J. H. Orme in two cases, Ample Weldon, his clerk, in one case, and against R. F. Haynes in one case. The case against Ollie Tucker, Haynes' clerk, was submitted to a jury, and that body could not agree on a verdict.

The defendants demurred to the jurisdiction of the court, and the manner in which the warrants were drawn, the court over ruled the demur, and at the conclusion of each case the attorneys for the defense asked for a new trial, and filled bond for an appeal to the circuit court.

County Court Orders

F. N. Dalton was appointed administrator of the estate of Wm. Hayden, deceased, and qualified with J. A. Farmer as surety.

A. H. Croft was appointed administrator of the estate of R. L. Hill, deceased, and qualified with R. H. Bealmear as surety.

Jas. M. Thompson was appointed and qualified as guardian of his sister, Emma A. Thompson.

NEWS NOTES.

Jo Parker says he will not put out a state ticket this year.—Murray Ledger.

A large meeting was held in the Academy of Music, New York, Monday, to protest against the policy of expansion. Expressions from ex-President Cleveland, W. J. Bryan and others were read and short addresses were made by ex-Ambassador Rust, Bourke Cochran and Samuel Gompers. Resolutions against the expansion policy were adopted.

Coming Again

I will be in Marion, Monday, Feby. 13th. As before to greet my many friends and ask them again to please do as many did when I last met them, settle their notes and accounts. I do this to favor my debtors and friends. So many meeting me when last in Marion and settled their notes and accounts, I feel that as many others will, on my next call do likewise. do this at an expense, besides my time away from my business and family. I cannot do so again unless I meet with prompt settlements.

Hope one and all will meet me and be able to pay me what they owe me.

With best wishes and a prosperous New Year, I remain as ever, a friend to my many friends.

RESPECTFULLY,

J. H. CLARK.

Letter From Manila

Bert Stout, a Crittenden county boy, who belongs to Uncle Sam's volunteers, writes his mother as follows:

On board Zeslander, Nov. 14 '98

DEAR MOTHER:—We arrived at Honolulu at 6 a. m. It is a pretty place, and it was a great sight to me to see coconuts, bananas, and other tropical fruits growing. They do not raise our good old Kentucky apples; they are shipped in and sold at five cents a piece, while these tropical fruits sell cheap.

The natives are mulatto colored, but have the features of the white man. Some of them are nearly white. They are called Kanakas. A large crowd of the natives and whites were out to see us land, and as we left the pier they commenced to throw oranges at us, and continued it until we were out of throwing distance.

We paraded the town, marching around the building that used to be the Queen's palace.

It rained three or four showers while we were there; it rains just enough to make a person feel cool, if out in it with our coats off; they tell me that it never rains hard. After a shower a rain-bow always comes, and it does not look to be over fifty yards away; it was the prettiest sight I ever saw.

When it is six o'clock p. m., at Honolulu it is mid-night with you, and at the rate we run we lose twenty minutes per day in change of time.

We left Honolulu on the 10th. Yesterday was the 14th, and last night at 6 p. m., we crossed the great international line where the time changes; so from 6 p. m., until mid night was the 15th, and that makes today Wednesday the 16th.

The Red-Cross put on our ship for us over \$9,000 worth of extra edibles, but so far we have only about \$25.00, but I guess they will saw up later on.

Nov. 18—We passed the Indiana last night; she left Honolulu thirty hours before we did, but we caught her in a week's run, we ran along beside her for awhile. It was a pretty sight to see her in mid-ocean at night with all of her lights burning. We soon passed her because our ship is the fastest. We are due to pass the Ohio next Wednesday.

Nov. 23—We had a little storm on the 19th but it did not amount to much, since then the water has been smoother than before. Yesterday we passed a volcano island, it was not in a state of violent eruption, but steam was issuing out of the mountain, which is said to be 1200 feet high. Nothing grows on it, and it looks mighty lonesome with nothing but water, water to be seen from it, but we were mighty glad to see even this small bit of ugly terra firma—the first we had seen in twelve days—along time to be out of sight of land.

We make from 250 to 300 miles every twenty-four hours. We have put on our light under-clothes and this Manila suits and still it is warm but we are standing the heat well. Tomorrow is Thanksgiving. Wonder if we will have turkey? I expect not. We all long to reach Manila, and wonder if it will be "scrapping" or guard duty when we do get there. For a few days we have had ice water. We have ice machines for making ice on board of the ship.

The way we wash our clothes is tying them to a rope and let them drag overboard in water. They come up as clean as a woman can get them by boiling.

Nov. 25—This is Thanksgiving, the chaplain preached for us this morning. We had a fine dinner after dinner, the sea got rough and some of the boys lost their dinner, but mine stayed with me all right. We had a dog on board, he was

JUST RECEIVED

A large and beautiful line of Embroideries and Laces, at

CLIFTONS.

A little pup when we got him at Nashville, and we brought him thus far, and this morning he slid down between the railings and went overboard, and we were all distressed over the sad fate of poor "St." for that was his name. The ship would not stop, and the last we saw of him he was swimming around in the waves.

Nov. 23—Well, we are in Manila harbor, we steamed in last night. We are anchored about two miles from the city, and we are where Dewey sunk the Spanish fleet. We are in sight of the Admiral's fleet now. From here Manila looks like a pretty city, it has more inhabitants than San Francisco. It is a grand sight to see the warships anchored here.

The Japs came out this morning with fruit to sell us.

The natives look like the natives at Honolulu. They nearly all go bare footed, and wear thin pants and a thin shirt, with the latter on the outside, and nearly all go bare headed.

Dec. 8—The steamship Senator leaves tomorrow for San Francisco with 400 sick soldiers. There are now 25,000 soldiers here. The first four companies of our regiment went ashore Monday to clean up and prepare an old sugar refinery for our regiment. We are assigned to first brigade and will do regular police service; will carry pistols on our belt instead of guns. Will be stationed in the city, and hope to get ashore next week. I have not been ashore but once. The natives are small in stature and I amused me to see them eat. Their substantial dish is rice, fish and a kind of fish gravy. They all sit on the floor around a big bowl and mix the rice and gravy together with their fingers and eat out of the bowl with their fingers. They wear barely enough clothes to hide the skin; they all smoke cigars and cigarettes.

One of our officers sent a cable-gram to Nashville the day after we arrived. It was but a few words but cost him \$39.25. It is not so warm here as we thought it would be.

If I keep my health and get out of this, when my two years are up, I think I will have a little laid up, I get \$18.60 per month. I will write a longer letter next time.

FOURTH

ANNIVERSARY

Of Marion Graded School Finds
426 Pupils in Line.

Wonderful Success of the Institution.

Last Thursday was the fourth anniversary of Marion Graded School and to commemorate the event, the pupils were given a half holiday.

As they came out of the house, they form in double file, each grade together, and marched through town. Four hundred and twenty-six were in line, and it was quite an imposing little army of well trained and patriotic youngsters.

On the evening of Jan. 18, 1895, the doors of the new building were thrown open to the public for the first time, and the big chapel was filled with the people of Marion, gathered to dedicate their new house and to inaugurate the graded school system in this community. It was one of the most notable gatherings in the history of Marion, and subsequent events have shown that we builded better than we knew.

On the morning of Jan. 21, 1895, the school opened with 297 pupils, and now it has 471. Then its pupilage was confined to Marion, now they come from all sections of the county, and from adjoining counties, and from the first day the institution has grown in every particular, and today we do not believe it has an equal as a public school in Western Kentucky, nor a superior anywhere. It has gone out and gathered in the children from the humblest little homes, as well as from the wealthiest fireside in the community, and extended its advantages exactly alike to each, and its work has had an ennobling, refining and inspiring influence upon its pupils, giving them lessons for the battles of life not found in the formal text book. Beyond the text books, it has taught religion, good morals, personal polish and patriotism. It has sent out some of the best teachers in the county, it has sent boys to college who won distinction at the beginning of their career, it has done more to build up and give time to Marion than any other institution of its business character in the community. It was a fortunate day for Marion when Mr. Charles Evans, who has been at the head of the school from its foundation, filed his application for the principalship with the trustees, and the history of the school need only be referred to establish the wisdom of the trustees in employing and retaining him. He has always had an able corps of teachers, and today they are doing a great work for this community.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave me relief. I continued to use it and now am well and strong. I can't say to much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at J. H. Orme's drugstore. Every bottle guaranteed.

DEACONS ELECTED.

Additions to the Membership of the Christian Church.

Rev. Ford, the pastor, filled his appointments at the Christian church Saturday and Sunday.

Saturday night Messrs. Dan Brown and Lee Johnson were chosen deacons of the church. The ordinance of baptism was administered to Ollie and Irene Wallace. Sunday Mrs. Harriet Belt united with the church.

TAKING THINGS EASY.

Two Barren County Murders Falttering Like Pigs.

John Franklin and Bob Brown, the two men condemned to die on the gallows here March 10th, next, are fattening like pigs in a pen, and take matters as easy as though they were serving a sentence for a misdemeanor, says the Glasgow News. Both are confined in one cell and sleep in the same bed. A few mornings ago Franklin remarked to Jailer Carter that he "wished the 10th of March would hurry up and come, as he was getting tired of Brown kicking the cover off of him." He said he got cold every night by Brown kicking the cover off. Brown, who has appealed his case, thinks he will be granted a new trial and will be given a life sentence at the next trial. Neither of the men seem to realize the short length of time they have to live, and talk about being hung like it was nothing unusual.

REV. NILES

Writes to a Henderson Paper About His Tolu Meeting.

AN AGED BAPTIST MINISTER

[From Henderson Gleaner.]

Tolu, Ky., Jan. 16, 1899.

Editor Gleaner: Our meeting here has closed. It commenced some days before our coming, Rev. Robert Johnson, P. C., inaugurated the work nearly one week before our arrival. It has been carried forward amid clouds, storms, rains, floods and mud. The power of the Lord has been with us despite all these adverse temporal conditions. Some wonderful work has been wrought. Souls have been converted, some reclaimed and some gloriously sanctified. The latter experiences have included some special cases among the Missionary Baptists worthy of special mention.

One venerable minister for years pastor of Deer Creek Baptist Church and for more than half a century a worthy member of the Missionary Baptist church, sought and obtained the blessed experience of entire sanctification. It came as a wonderful surprise to many of the Baptist people as every expedient had been employed to keep him from "going off" as it is called into the delusion and heresy of modern Holiness. A most wonderful change in his personal appearance has taken place. His face has lightened and brightened in a degree that is simply astonishing. It gives me no small degree of joy to think how sweet and joyous his remaining days may be. His usefulness as a gospel minister will also, I feel assured, be greatly increased as he goes forth endowed with power to proclaim the gospel of free, full, perfect, present and eternal salvation. Allow me to commend him to all my beloved brethren, wherever in the providence of God he may be called to preach this great salvation. Brother Israel Behout does not need this commendation where he is known. The seals to his ministry in souls saved, speak loud and clear.

Another blessed instance of the power of truth supported by the Mighty Spirit of God, to overcome prejudice and deliver from bondage is that of Newton Weldon, deacon of the same Baptist congregation to which Elder Behout ministered. Weldon, caught with strong crying and tears the same soul cleansing experience and was heard and granted that which he requested. Others of my own beloved denomination bowed at the altar and sought the cleansing, purifying power and arose filled with peace, sweet peace.

Stop that barking by the use of Cousen's Honey of Tar. It arrests the cough, allays irritation of the throat, and relieves congestion of the lungs in a day. It is safe and pleasant to take, and never disappoints. 25 and 50 cents at J. H. Orme's drug store.

TWO WEDDINGS.

Lewis-Allen

Wednesday evening Jan. 18, at the residence of Rev. J. S. Henry, of this place, Miss Hattie Allen and Mr. Alfred Lewis were united in marriage, Rev. Henry officiating. The bride is the daughter of Mr. Ben I. Allen, a well-to-do farmer of the Oak Grove neighborhood. She is a most excellent young lady. The groom is a promising young farmer of the Crayneville neighborhood, industrious, honest and popular. The Press extends its best wishes to the happy couple.

Farley Thompson

Mr. S. G. Farley and Miss Emma A. Thompson, of the Shady Grove, neighborhood, came to town Saturday, and were united in marriage in the county clerk's office, Rev. Wm. Belt officiating, with a room full of witnesses. They were a happy couple both before the ceremony, and afterwards. The Press extends congratulations.

Poor Blood

When a horse is poor in flesh, a new harness won't give him strength. If a horse is cold new furniture won't warm it. If your strength is easily exhausted; work a burden; nerves weak; digestion poor; muscles soft; if you are pale and worn out, the trouble is with the blood. It is not so much IMPURE blood as POOR blood. Pills won't make this blood rich; nor will bitters, nor iron tonics, any more than a new harness will give strength to the horse, or new furniture will make a house warm. For poor blood you want something that will make rich blood. SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites is the best remedy in the world for enriching the blood. We have prepared a book telling you more about the subject. Sent Free. For sale by all druggists at 50c. & \$1.00. SCOTT & BOWNE, New York.

JOSEPHINE FRITZ.

Efforts Being Made to Secure a Pardon For Her.

Elsewhere in this issue will be seen some reference to the effort being made to get Gov. Bradley to pardon Josephine Fritz. Mr. Green W. Pritchett, of Corydon, who is taking an active interest in the matter, has petitions praying for executive clemency for this poor unfortunate woman, signed by representative citizens of both Union and Henderson counties. As The Sun was not in existence at the time of the crime for which Josephine Fritz is punished was committed we are not familiar with the details of the murder, but there unquestionably exists here a growing sentiment in favor of liberating the Fritz woman. It is generally believed that she was coerced by Mose Caton, through fear of him, into taking whatever part she did in the crime. She has now been confined in the penitentiary about thirteen years which, taking into consideration the woman's surroundings and education, together with all of the mitigating circumstances connected with the tragedy, many of our very best citizens regard as punishment sufficient to fit the crime. The Sun believes that the pardoning power should be exercised with great care by our executives, but should Gov. Bradley extend clemency to Josephine Fritz that a will meet with the approbation of many good citizens who are both familiar with the crime and zealous in upholding the law—Morganfield Sun.

Cattle Killed.

At Mr. W. J. Jackson's farm on the Columbus road, a straw steek fell in upon twenty-eight head of two-year-old steers, killing sixteen and crippling three so badly that they will die. The cattle belonged to Mr. Jackson and Mr. Charles Brooks. The straw had been stacked over a frame to afford a shelter in bad weather, and the heavy rains for several days preceding the accident had doubtless so increased the weight of the straw that the supporting gave way. Some of the cattle were crushed and crippled and others were evidently suffocated, as the accident was not discovered for several hours.

NOTE THIS.

To the tax-payers of Crittenden county, who have not paid their taxes for 1898, I need the money and must have it. I stated to you in my first notice in the Presses what I would do. I will put one or two men in each precinct to collect the tax or levy. I will begin in Harrison Precinct on the Third day of January 1899, and I will not pass any man. And to you who just pay a poll tax if not paid, you will find your name on the delinquent list and published in the county paper. That is the law, and we must abide by it.

GREENBACKS or Government Money.

At close of our Civil War in 1865, there appeared in the London Times the following:

"If that mischievous financial policy which had its origin in the North American Republic during the late Civil War in that country, should become indeluctable down to a future, then that government will furnish its money without cost. It will have all the money that is necessary to carry on its trade and commerce. It will become prosperous beyond precedent in the history of civilized nations of the world. The brain and wealth of all countries will go to North America. THAT GOVERNMENT MUST BE DESTROYED OR IT WILL DESTROY EVERY MONARCHY ON THIS GLOBE."

The famous Hazard circular, to capitalists in New York, and the Bael Bank circular to United States Bankers, both emanating from London, and the fabulous corruption fund raised in England and Germany, estimated at \$1,500,000, were the agents that secured the closing of our mints against silver.

The "walk into my parlor" policy of England, during and since the Spanish War, is the latest evidence of English Diplomacy in shaping the destiny of the United States Government.

Notwithstanding the famine price of wheat, the Spanish War, and fabulous expenditures of money by our government during the past year, gold has increased in value eleven per cent, and all other values decreased in the same proportion.

For a thorough understanding of the money question, or silver issue, the Cincinnati Enquirer has uniformly given evidence of its ability to teach, explain and produce all facts and truth. It is a paper that ought and can be read by all classes with pleasure and profit.

A Croup Cure

Is what many a mother is looking for; something absolutely safe and reliable, that will disarm her terror of that dread rattling, strangling cough, so fearful to the mother, so fatal to the child. Ayer's Cherry Pectoral is a croup cure that can be relied on. Thousands say so.

Mrs. W. J. DICKSON ("Stanford Eveleth") writes from Truro, N. S.:

"That terror of mothers, the startling, croupy cough, never alarmed me so long as I had a bottle of Ayer's Cherry Pectoral in the house."

"We have used Ayer's Cherry Pectoral in our family for years. Once when our boy had a severe attack of croup, we thought that he would die. But we broke up the attack by using Ayer's Cherry Pectoral."

R. H. COX, Plancherville, La.
